

IEEE INTERNATIONAL CONFERENCE ON COMMUNICATIONS
7 - 11 June 2020 // Dublin, Ireland
Communications Enabling Shared Understanding

Call for Papers

Communication Software, Services, and Multimedia Applications Symposium

Symposium chairs

- Qian Zhang, HKUST, China
qianzh@cse.ust.hk
- Zheng Chang, University of Jyväskylä, Finland
zheng.chang@jyu.fi
- Abd-Elhamid M. Taha, Alfaisal University, Saudi Arabia
hamid.taha@gmail.com

Scope and Topics of Interest

The Communication Software, Services, and Multimedia Applications Symposium will provide a platform to present state-of-the-art research work on challenging issues related to software design, deployment, delivery, and management of services and multimedia applications. It will also provide an opportunity for face-to-face discussions and information sharing among experts from both academia and industry. The Symposium is sponsored by the IEEE Communications Society technical committees on Communication Software (CommSoft TC) and Multimedia Communications (MMTC).

The Communications Software, Services, and Multimedia Applications Symposium covers challenges and advances for network softwarization and enablers, service delivery, management, and multimedia applications in fixed and mobile communication networks.

The symposium solicits original contributions in the following topics:

Network Softwarization & Services

- Network function virtualization
- Service function chaining
- Resource sharing & isolation
- Software defined networking
- Virtualization technologies/techniques
- (mobile/multi-access) edge and fog computing
- MEC-, SDN-, NFV-based network services
- Service, slice, and infrastructure monitoring

- Performance, interoperability, and scalability challenges/issues
- Security and privacy issues in virtualized environments
- Mobile core networks and their slicing
- Slice programmability, modeling, composition algorithms and deployment
- Network/service orchestration and management
- Experimental testbeds, trials and deployment
- Business models & new verticals
- Model and delivery platforms
- Scalable video delivery
- Cooperative networking for streaming media content
- Service overlay networks
- Massive network data analytics
- Machine learning for network service enhancement
- Proactive management of the softwarized network infrastructures
- Distributed systems and applications, including Grid Services
- Convergence of communication and global services
- Communications software in vehicular communications
- Architectures for cooperative communications and ubiquitous computing
- Software Defined Radio Access Network (RAN)

Quality in Services and Multimedia Applications

- Quality of Experience (QoE) modelling and metrics
- Adoption of QoE metrics and models for assessment, control and management of multimedia services
- Strategies of End-to-End QoE management
- Quality-oriented routing algorithms
- Video quality assessment and impairment concealment
- Performance studies of digital media ecosystem
- High quality service provisioning for multimedia applications

Multimedia Systems and Services

- Multimedia cloud services
- Multimedia streaming, multicast and broadcast services
- Web Services and distributed SW technology
- IMS and multimedia services
- Home and entertainment digital media ecosystem
- IPTV service and home networking
- Triple and Quadruple play services
- P2P and P2P-SIP services
- Machine learning techniques for multimedia content analysis
- Machine learning techniques for video delivery and service
- Multimedia Big data and social media
- Multimedia security and privacy

- Multimedia Edge Computing and Fog Communication

Service Management

- Security and privacy in network and service management
- Scalability and reliability issues
- Charging, pricing, business models
- Context awareness and personalization
- Next generation services and emerging threats
- Cross-layer optimization for multimedia service support

Submission Guidelines

The IEEE ICC 2020 website (icc2020.ieee-icc.org) provides full instructions on manuscript format and how to submit a manuscript. You will select the desired symposium/track when submitting your manuscript.
